

10-9=

(Luke 17)

One day when Jesus was walking in a village he saw 10 men who were lepers. (A leper is someone with a certain kind of skin disease. In those days people who were lepers had to stay far away from everyone else.) They called out to him.

He told them to go get checked out to show that they were healed. As they went to do that, they saw that they were healed!

Only one man turned back to say thank you. Jesus told him, "Your faith has made you whole."
