Back in Bible times lots of things were different.

1.) Most people did not wear shoes. To get somewhere they walked most of the time and the roads were very dusty. So, if someone came to visit you, it was a nice thing to give them some water to

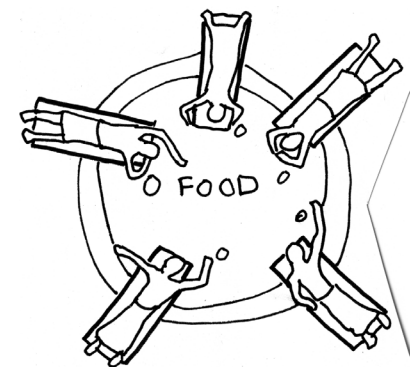

their feet.

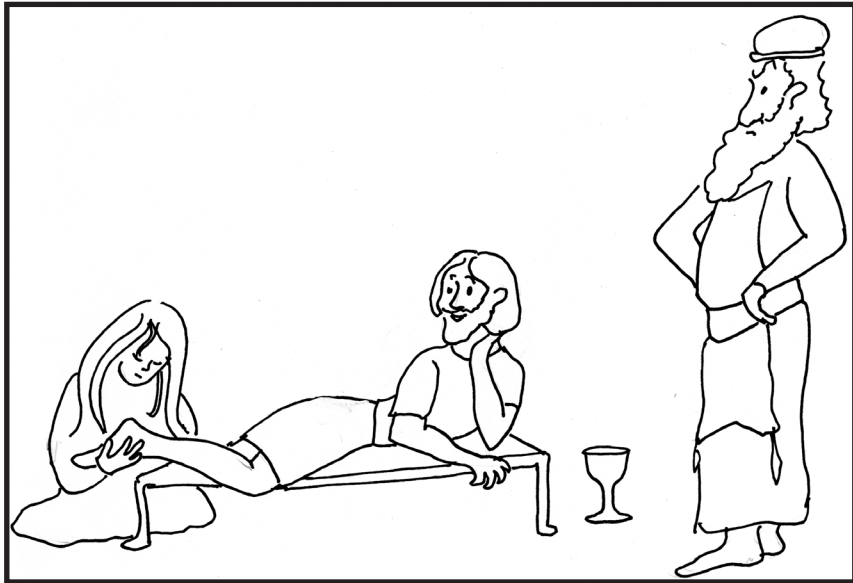

2.If you went to eat at someone's house there were

Everyone lay down on low benches with their heads in the middle.

One time Jesus was invited to eat with a very important man. The man did not give him any water to wash with. While they were eating a woman came in. She had done some bad things and she was sorry. She was so sorry that she was crying. She used her tears to wash Jesus' feet! She dried them with her hair and put lotion on them.

The important man did not like this! Jesus said that the woman was sorry for what she had done. She was showing love, so she was forgiven.

Draw lines from each person to what they showed in the story.
